

By using PayCard, we have greatly reduced the administrative burden associated with the finances of our public health projects. An added benefit to having the prepaid debit card and payroll debit card was its easy use for ATM transactions on our international travels.

TFG's Pay Card Solutions has revolutionized the way Emerald approaches the payroll process! With the implementation of TFG's payroll debit cards we have been able to employ on demand those who choose not to bank through traditional means. They simply complete the quick authorization and application, we receive in real time an account number to deposit their payroll to- our employee receives a professional payroll debit card that bears the Visa® Logo that they use to access their cash. Our goal is to pay our employees who work so hard for us in real time- TFG makes this not only a possibility, but a reality!

I am the Accountant for a busy Medical Staffing Agency, called Advantage Medical Staffing. Our company has been utilizing Pay Cards for over a year, and we have cut our payroll processing in half, we have also eliminated our cost on processing checks. The customer service we have received with the payroll debit cards and prepaid debit cards is exceptional. Feel free to contact me at, wendyb@amsisthebest.com or visit us on the web.

Sincerely
Wendy Boutwell, Accountant

Our company has a fair number of employees in the field and in some rural locations. Getting employees their pay on payday has been difficult in the past, since we have quite a few employees that can't participate in our direct deposit program. The Payroll Debit Cards are really nice because my employees who don't have a bank account, no longer have to worry about picking up the pay and then finding a bank that will cash their checks. They can access their pay immediately using their payroll debit cards.

Doug Killmer
Office Manager
Great Basin Environmental, Inc.

Payroll Debit Cards are a great way for me to get paid. As a driver, I am rarely around on paydays to pick up my check. I've had a bank account in the past, but was tired of paying their high fees for services rarely used. With the Platinum Pay Card my employer easily direct deposits my pay to my payroll debit card, so wherever I am I have access to my money on payday. Further, I ordered a prepaid debit card for my two boys in high school to easily get them money when needed with added security through Visa.

I can only spend what I have and since there's no cost for me to use my payroll debit card at merchant locations I'm avoiding those unnecessary fees which is perfect! Thanks TFG

Shelley Hanson
Employee
Kendall Auto Group

TFG's Pay Card service has been great!! Our employees love it - it is so convenient! We pay our employees daily and this really helps out instead of them having to come in to the office everyday! The staff is so helpful too! Thanks to everyone at TFG Card Solutions.
